**UNSUITABLE EXTINGUISHING MEDIA:** None known

**SPECIAL PROTECTIVE EQUIPMENT FOR FIREFIGHTING:** Wear self contained breathing apparatus.

**ADDITIONAL ADVICE:** This product ignites in a flame and continues to burn on removal of the source. With thermal decomposition toxic and combustible gasses and steam are released. There is a danger of the fire spreading through spontaneous ignition of the gaseous decomposition products. Molten product must therefore be cooled with water. Water used to extinguish the fire and fire residue must be collected and disposed of in accordance with local regulations..
